### Strengths & Financials of National Securities Depository Limited (NSDL)

**Strengths****Risks**

 The company claims to be India's first and leading depository, with the largest market share in terms of demat settlement value, number of issuers, and value of assets under custody as of FY25. It claims to have introduced direct dematerialisation in India, bypassing the traditional two-step model.

 The company operates a centralised digital system that allows investors to hold and transfer their securities electronically. The company further states that this setup enables efficient and cost-effective settlement of transactions.

 By utilising its tech infrastructure, the company claims to have expanded its offerings to meet the evolving needs of the Indian securities market. The company has introduced several digital products, services, and additional features, both directly and through its subsidiaries — NSDL Database Management Limited (NDML) and NSDL Payments Bank Limited (NPBL).

 As of FY25, the depository claims to have maintained a wide network of 65,391 service centres operated by depository participants (DPs).

 As of FY25, the company stated that there were more than 39.45 million active Demat accounts managed through 294 registered DPs. These account holders were spread across over 99.34 percent of India's pin codes and in 194 countries globally.

 As of FY25, the company claims to have serviced 67.90 percent of the total value of equity, debt, and other securities held in dematerialised form by foreign portfolio investors in India.

 The company claims to have a dedicated security operations centre (SOC) to handle cybersecurity threats. This facility operates 24/7 and is staffed by security experts responsible for monitoring, detecting, and responding to cyber incidents in real-time.

 The company claims to use the MITRE adversarial tactics, techniques, and common knowledge (ATT&CK) framework, a structured model for analysing cyber threats across different stages of an attack. Furthermore, the company claims to have received Payment Card Industry - Data Security Standard (PCI-DSS) certification to ensure the secure handling of payment card transactions.

 The company claims to provide transaction-related alerts of demat accounts via SMS (TRADeS) service, which notifies clients of activities in their depository accounts to enhance security and risk awareness. As of FY25, 37.99 million investors were registered for this service.

 Over the years, the company has registered a consistent increase in its revenue from operations and profit after tax (PAT). Revenue from operations increased from Rs 1,021.99 crore in FY23 to Rs 1,268.24 crore in FY24 and Rs 1,420.14 crore in FY25. PAT increased from Rs 234.81 crore in FY23 to Rs 275.44 crore in FY24 and Rs 343.12 crore in FY25.
